

The Stipendium Hungaricum Scholarship Programme (2019-2020)

Código de Beca: 1407

Nombre: The Stipendium Hungaricum Scholarship Programme (2019-2020)

Descripción: Hungary provides high quality education in the heart of Europe. Today, there is a growing demand of international students to study in Hungary. Besides the quality of education and degrees recognised throughout Europe and beyond, students are attracted by the affordable living costs with an extremely favourable cost-to-value ratio, a safe and friendly living environment with convenient public transportation, the central location of the country in Europe and the unspoiled natural beauties combined with a 2000 year-old, rich Hungarian history and several UNESCO World Heritage Sites. Hungary is also within the top countries with the highest number of scientific Nobel Prize Winners per capita, and a numerous scientific inventions from Vitamin C to Rubik's cube and so on. The Stipendium Hungaricum Scholarship Programme was launched in 2013 by the Hungarian Government. The main goal of the programme regarding the education policy is to support the internationalisation of the Hungarian higher education and its constant development, to strengthen the international relations of the Hungarian academic and research community, to enhance the cultural diversity of the higher education institutions and to promote the good reputation and competitiveness of the Hungarian higher education throughout the world. The programme also aims to establish and encourage the personal and professional attachment of foreign graduated students to Hungary and contribute to the promotion of the Hungarian culture and language abroad. The core mission of the programme is to increase the number of foreign students in Hungary and to encourage Hungarian higher education institutions to attract top foreign students.

The programme is based on bilateral educational cooperation agreements signed between the Ministries responsible for education in the sending countries/territories and Hungary or between institutions. Currently nearly 70 Sending Partners are engaged in the programme throughout 5 different continents and the geographical scope of the programme is spreading each year.

The Programme is managed by Tempus Public Foundation. Stipendium Hungaricum scholarships are available for bachelor, master, one-tier master, doctoral and non-degree programmes (preparatory and specialisation courses).

28 Hungarian higher education institutions are engaged in the Stipendium Hungaricum Programme for the 2019/2020 academic year with more than 500 study programmes in foreign languages (more than 450 of them in English

language). Study programmes are generally available in English and Hungarian languages, with some programmes offered in German and French as well.

The full list of available study programmes and Host Institutions is accessible on the “Study Finder” section of our website (<http://studyinhungary.hu/study-in-hungary/menu/find-a-studyprogramme/study-finder.html>) and in the online application system. Please note that only these study programmes can be applied for.

Stipendium Hungaricum scholarships are available for bachelor, master, one-tier master, doctoral and non-degree programmes (preparatory and specialisation courses).

Note about one-tier master programmes: In the Hungarian education system, one-tier master programmes cover both the bachelor and the master level of studies; therefore it is an undivided master programme that results in a master degree. These one-tier programmes are offered in specific study fields such as general medicine, pharmacy, dentistry, architecture, law, veterinary surgery, forestry engineering, etc.

Note about doctoral programmes: According to the current Hungarian legislation, the duration of doctoral programmes is 8 semesters. The doctoral studies consist of two different phases: the first one is a two-year long period for professional training and research, while the second two-year long section is for research and dissertation. At the end of the first 4 semesters, doctoral students are obliged to take a complex exam in order to assess the educational and research progress of the student. Doctoral students can only continue with the second two-year phase if they pass this exam. The amount of the monthly scholarship is different in these two phases of doctoral programmes. Please see section 1.3 about financial details and section 3.2.2. about the details of application for doctoral programmes.
